Color:	Buff	**Altered:**	Yes

Attributes

Good with Cats • Good with Dogs • Medical - Basic Vetting Completed • Tier 3 - Medical - Discuss condition(s) with Med Coordinator

About

Oliver is a special needs cat that requires a little bit more experience, but nothing that can't be learned and managed easily! Oliver was born partially paralyzed in his back end. He is not able to use his back legs for walking, but he can move them slightly. Unfortunately, this defect also effects his bladder. This means that he does not have control of his bladder, so it has to be manually expressed. As scary as that sounds, it's actually very easy after some practice! His bladder does need to be expressed 3-4 times a day, but it takes less than a minute to do! Oliver is an extremely sweet boy that loves everyone he comes across. He gets along great with other cats and will tolerate dogs as long as they don't push his boundaries. He is VERY playful! Since he is a special needs cat with specific needs, we have also worked with Oliver on his traveling abilities! He travels amazingly! He loves being in the car, looking out the window and experiencing the world! Oliver is located in Wichita, and we prefer that his adopter live in Wichita as well.
