About

We don’t know Karen’s entire story, but we do know it almost ended on a euthanasia list. We couldn’t let that be the ending for this incredibly sweet and funny little girl. ❤■ Since coming to us, Karen has done wonderfully in a group of dogs and has greeted every visitor she’s met with sweetness and affection. She has so much life left to live and so much love left to give. We’re grateful to be part of her story, but we can’t wait for the chapter where she finds her very own people. Karen is ready for her furever! ■
