Weight:	74.2 lb	**Color:**	White/Red/Mahogany
Altered:	Yes		

Attributes

Adult-Only Home Required • Dog selective • Medical - Basic Vetting Completed • Potty trained

About

Meet Cadillac! Cadillac has had a long life of being bounced around. His original family had him for over 10 years until they moved and didn't take him with. He eventually made his way into our care and has been with us waiting for a furever family for several years now. Cadillac is a sweet, sweet senior that loves stuffies, people and long walks. When we say Cadillac loves to walk we mean he LOOOVES to walk. He strolls, takes in the sights and just generally enjoys every moment of his time outside. In his past, Cadillac lived with kids of all ages in his previous home and they were his very best friends. His foster mom is a wonderful advocate for him as she takes him everywhere and has fostered him for several years now - she says he is the best dog ever! Cadillac does have allergies causing skin itchiness, but our medical team can review his specific needs with you. He is very low energy and the most perfect snuggle potato. He prefers to be the only pup in the home, but doesn't mind the presence of other dogs.
